The status of the claims is as follows:

Claim 20 has been cancelled;

Claims 7, 13, 15, and 17-19 are withdrawn from consideration; and

Claims 1-6, 8-12, 14, and 16 are herein addressed below.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6, 12, 14, and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by US patent to Beyerlein (5,528,861). As shown in Figures 6-10, Beyerlein (5,528,861) discloses a window lift system (5') comprising a pulling device (4) attached to a module (2') for a side window of a vehicle and specifically , a vehicle with the window lift system (5') further comprising a window pane (1) and a single catch (3') attached to a bottom edge of the window pane (1) and a cable/chain (4a and 4b) attached to the pulling device (4) off-set from one another such that as the window pane (1) is driven between open and closed positions and the window pane (1) is controlled solely by the upward pulling and downward pulling of the pulling device (4). The position of the window pane (1) is positioned within the catch (3') has six degrees of freedom since the pulling device (4) attaches the cables (4a and 4b) to the single catch (3') via a single guide (2) thereby allowing the catch (3') the freedom to be adjusted along its vertical path.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 8-11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Beyerlein (5,528,861) in view of Thomas (5,992,099). All of the elements of the instant invention are discussed in detail above except providing the catch with a lower stop and having walls forming a cone shape. Thomas ('099) discloses a catch (3) attached to the lower edge (100) of a window pane (1) and including a stop (301) and side walls (31 and 32) forming a cone. It would have been obvious to one of ordinary skill in the art at the time of the invention to provide Beyerlein (5,528,861) with a catch having a stop and sloped walls as taught by Thomas ('099) since the stop and sloped walls allows the bottom edge to be positioned within the catch and the stop allows the catch to be fixedly attached thereto thereby allowing one to easily install/mount the window pane to the catch. Furthermore, the catch of Thomas ('099) would operate equally as well when attached to the window lift system of Beyerlein (5,528,861).

Applicant's arguments with respect to claims 1-6, 8-12, 14, and 16 have been considered but are moot in view of the new ground(s) of rejection.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
